Technical Training

Technical Training at SR Technics

At SR Technics we draw on over 75 years of experience to offer you a wide ranging programme of technical training courses led by a team of more than 40 instructors, all of who have extensive first hand maintenance knowledge. Our training is very hands-on and driven by our instructors own operational experience.

Courses take place regularly in Zurich, Geneva, Dublin, London-Stansted and at customer sites worldwide.

We offer:

- Basic Maintenance Training
- Aircraft Type Training
- Specialist Training
- Web Based Training (WBT)
- Airbus Active Learning and Competence Focused Training (AACT)

Basic Maintenance Training

Our officially recognised basic maintenance training courses are in accordance with EASA Part-66 and meet all the requirements for the Aircraft Maintenance Licence AML.

EASA Part-66 describes the content and conduct of basic training courses which prepares candidates to

obtain the Aircraft Maintenance Licence (AML) for categories A, B1 and B2. Individual modules cover the training content of EASA Part-66 for each category. SR Technics offers basic maintenance training courses for aeroplanes and helicopters, as well as avionics courses.

Training Courses

Category A1: Aeroplane with Turbine Engines

Category B1: Aeroplane with Turbine and Piston Engines
Helicopter with Turbine and Piston Engines

Category B2: Avionics

Type Training

Our type training is also conducted in accordance with EASA Part-66.

Training Courses

- Ramp & Transit (Cat A)
- Line & Base Maintenance (Cat B1/B2)
- General Familiarisation (Cat C)
- Differential Courses from one type to another
- Engine Courses

Aircraft Types

- Airbus A310/A318/A319/A320/A321/A330/A340
- Boeing B737/B757/B767/MD11
- Fokker F70/100
- Corresponding Engines

Specialist Training

SR Technics has extensive experience in providing courses dedicated to particular customer needs which can often prove to be some of our most successful training programmes.

Training Courses

Engine Ground Run-Up Courses:

V2500	A319/320/321
CFM 56	A318/319/320/321
PW 4000	A330
GE CF6	A330
RR RB 211 Trent	A330
CFM 56	A340
CFM 56	B737-300/400/500 Classic
CFM 56	B737-600/700/800/900 NG
PW JT8D	B737-100/200
PW JT8D	McD MD80
PW 4000	McD MD11

- Boroscope Training
- Bare Engine Training
- ETOPS Training
- PFC (Pilot Pre-Flight Check) Courses A320
- Aircraft Technology for non-technical personnel
- Customised Courses e.g. for aircraft firefighters
- Continuation Training
- Human Factors Training

Other Additional Training

To help you stay ahead in an increasingly competitive industry, our training can also extend well beyond aircraft handling into areas such as optimising aircraft utilisation and maintenance ground times. Each course can be customised to fit your particular routes, fleet and staff knowledge-level.

Benefits

- Each course is comprehensive and conducted efficiently, permitting the least time off-duty
- Blended learning, classroom training combined with computer and web-based training (e-learning)
- Practical training on the aircraft (1:1) with parts location, trouble shooting exercises and MEL procedures
- On-the-Job (OJT) training
- Courses can be tailored to your specific requirements within the limitations of EASA Part-66 / 147
- Courses can be delivered at your own location saving considerable cost and time disruption
