European Aviation Safety Agency

APPROVAL CERTIFICATE

EASA.21J.358

Pursuant to Regulations (EC) 1592/2002 and (EC) 1702/2003 and subject to the conditions specified below, the Agency hereby certifies

SR Technics Switzerland Ltd

CH-8058 Zurich Airport
Switzerland

as a DESIGN ORGANISATION

approved according to Part 21, Section A, Subpart J

CONDITIONS:

1. The approval is limited to that specified in the enclosed Terms of Approval, and

2. This approval requires compliance with the procedures specified in the Design Organisation Handbook, reference DOH, in the latest revision, and

3. This approval is valid whilst the approved Design Organisation remains in compliance with Part 21, Section A, Subpart J.

4. Subject to compliance with the foregoing conditions, this approval shall remain valid until surrendered or revoked.

For the European Aviation Safety Agency,

Date of issue: 29 November 2007

Roger SIMON
Design Organisation Manager
Terms of Approval
Design Organisation Approval Certificate
EASA.21J.358

1 Scope of approval
This Design Organisation Approval has been granted for:

- designing in accordance with the applicable type-certification basis, operational suitability data certification basis and environmental protection requirements:
  - Changes to large aeroplanes in the following areas:
    o Cabin interiors and associated systems.
    o Installation of avionics equipment.
  - Minor changes to large aeroplanes in the following areas:
    o Cockpit, cargo compartment.
    o Structures.
    o Systems (e.g. electrical, mechanical, hydraulic, pneumatic, air-conditioning, oxygen)
  - Minor repairs to large aeroplanes in the following areas:
    o Avionic systems.
    o Electrical systems.
    o Structures.
    o Cabin interiors.
    o Systems.
  - minor changes and repairs to turbine engines excluding design changes and repairs to systems components and disks, shafts and spacers defined as critical parts or life limited parts.

- demonstrating and verifying the compliance with the applicable type-certification basis, operational suitability data certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2 Categories of products
Large aeroplanes.
Turbine engines.

3 List of products
[Not applicable]

4 Privileges
a) The holder of this design organisation approval shall be entitled to perform design activities under Part21 and within its scope of approval.
b) Subject to 21.A.257 (b), the Agency shall accept without further verification compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining a supplemental type-certificate.

c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:
   1. to classify changes to type-certificate and repairs as “major” or "minor";
   2. to approve minor changes to type-certificate and minor repairs;
   3. to issue information or instructions containing the following statement: “The technical content of this document is approved under the authority of DOA ref. EASA.21J.358”;
   4. to approve minor revisions to the aircraft flight manual and supplements, and issue such revisions containing the following statement: “Revision No [YY] to AFM (or supplement) ref. [ZZ] is approved under the authority of DOA ref. EASA.21J.358.”

5 Limitations
[See in 1, above]

1. Changes which impact product’s environmental characteristics are excluded.
2. Development of Operational Suitability Data excludes the OSD constituents Simulator Data and Maintenance Certifying Staff Data.
