SR Technics

[N]SIDER

GROWING GLOBALLY. STAYING CLOSE TO OUR CUSTOMERS.

"As we continue to strengthen our presence across key markets, our focus remains firmly on our customers. By expanding our capabilities and building strong partnerships, we are committed to delivering the expertise, quality and service our customers rely on, wherever they operate.

Our customers remain at the heart of everything we do."

Bo Lump
SVP Global Business Development

MARKET FOCUS – MRO EUROPE

"If one word describes Europe's engine MRO landscape, it is **uncertainty.** On the demand side, aircraft deliveries and fleet retirements reshape requirements, with fuel prices driving the pace. On the supply side, skilled labor shortages and supply chain constraints limit flexibility. So, great timing to meet at MRO Europe! At SR Technics, we look forward to discussing your scenarios and finding ways to make them work for you."

Vincent Metz
VP Business Development Europe
