TECHNICAL EXCELLENCE

QUALITY AND COST- EFFICIENCY COMBINED

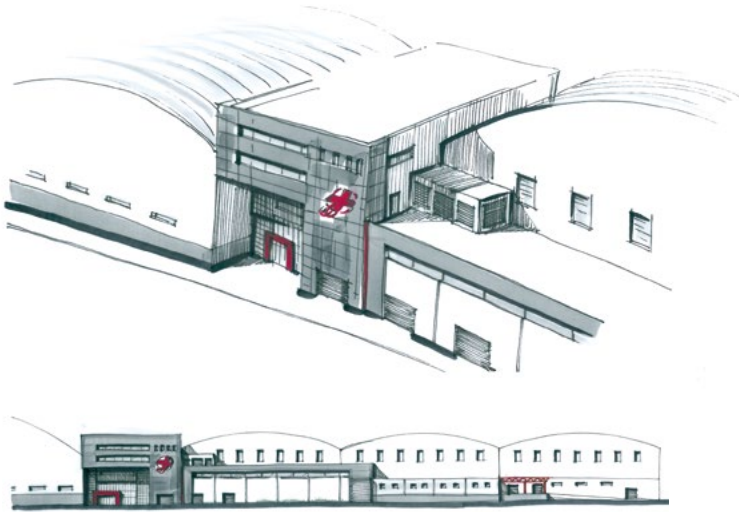

The SR Technics Center of Excellence for narrow-body aircraft maintenance in Malta delivers premium MRO services. Our attractive platform combines proven quality and technical excellence with advantageous commercial terms.

The service portfolio in Malta covers the full spectrum of aircraft maintenance for the Airbus A320 family and the Boeing 737NG. In cooperation with our partner in aircraft painting, we also provide Lease-End Transitioning Services (LETS) for these aircraft, offering flexible options for maintaining a modern fleet.

All work is done at hangars with a direct taxiway to Malta International Airport. By choosing our maintenance services in Malta, you are assured not only the highest levels of safety and reliability, but also short turnaround times and cost-efficient service delivery.

SHORT
TURNAROUND
TIMES

WORLD CLASS SERVICE

Expanding local operations:

- ▶ Modern six-bay hangar facility, which will accommodate both narrow and wide-body aircraft at Malta International Airport (scheduled completion date: Q2 2020)
- ▶ 30,000m² facility, including workshop space
- ▶ Increased capacity for heavy maintenance, C-checks and cabin modifications to up to six narrow-body aircraft at a time
- ▶ Single-bay temporary hangar until full completion of new hangar facility

About SR Technics

SR Technics is a world leading MRO service provider backed by more than 80 years of operational experience.

Headquartered at Zurich Airport, we serve around 500 customers worldwide with comprehensive services for the technical support and management of their aircraft fleets, engines and components. This is coupled with extensive engineering know-how, 24/7 worldwide component availability, broad technical training offerings and cabin modification services.
