### CUSTOMERS AROUND THE WORLD HAVE ENTRUSTED US WITH **NEARLY 6,000 SHOP VISITS TO DATE**

SR Technics is an authorized CFM and Pratt & Whitney MRO engine shop and our services have been making the difference to carriers for decades.

We take care of customer needs during each phase of their engine life cycle by focusing on quality, cost control, asset value retention, material management and repair solutions.

At SR Technics, we are proud to offer some of the most competitive turnaround times in this industry. In addition, we are constantly upgrading our in-house repair capabilities to further reduce our short turnaround times and continuously improve our performance. Our goal is to provide our customers with the longest on-wing time at the lowest cost.

Providing full MRO services, SR Technics is an authorized repair station for engines (Pratt & Whitney, CFM) and fuel components (FMU, HMUs Honeywell). We hold an EASA Part 145 Maintenance Organisation Approval.
